

ARE YOU GETTING THE ATTENTION YOU DESERVE FROM YOUR PLAN AUDITOR?

The Importance Of Plan Audit Quality

The Department of Labor recently notified Plan Sponsors that choosing a qualified CPA firm is a critical responsibility in ensuring compliance with ERISA fiduciary requirements.

This is the highest deficiency rate since the studies began nearly 30 years ago.

The DOL believes the deficiencies put **\$653 billion** and **22.5 million plan participants and beneficiaries** at risk

Audit firms performing the most plan audits had a deficiency rate of only **12%**

“There is a clear link between the number of employee benefit plan audits performed by a CPA and the quality of the audit work performed.”
