

Biography

Carol M. Voth, CPA

Audit Director

EXPERIENCE SUMMARY

Carol's passion for business began at the age of 7 when she started working for her family's concrete block company. She answered phones and did other general office tasks, but by age 10 started making the bank deposit and helped with invoicing. Years later, Carol joined the company's board of directors and helped in the governance issues associated with running a business. She applies this experience of entrepreneurship and family business challenges to her current clients at BDO.

Carol has more than 15 years of public accounting experience. She manages numerous client engagements and provides ongoing mentoring and training to newer team members. Carol works with clients in technology, life sciences, manufacturing, wholesale/distribution, and other product and service companies. Her experiences include working with clients that have unique and complex financial instrument transactions associated with equity-based compensation and the raising of capital.

Carol is also actively involved in campus recruiting for new team members and new employee orientation.
