Vendor Verify
Simplify vendor data cleanup

BDO Digital Labs is your trusted advisor for all things product development. Our comprehensive suite of products and services is designed to set you up for success when taking a product to market. **Vendor Verify**, a tool within our suite of solutions, allows you to standardize your vendor master data.

Overview

With duplicate data and manual processes, cleaning up vendor variations can become tedious and overwhelming. Vendor Verify allows for simplified workflow and easier cleanup. Within the app, users can edit records and easily remediate duplicate vendors. The result? Reduced duplicate payments and improved vendor master controls.
